VLADYSLAVA SYSENKO

Python Developer

vladyslavasysenko.github.io/Portfolio

SUMMARY

I'm excited to contribute my skills and knowledge in various python frameworks, SQL/NoSQL databases and AWS cervices as a python backend developer to projects by joining a company of professionals who value reliability and hard working.

SKILLS

- **PYTHON: DJANGO, FASTAPI, FLASK**
- **SQL: POSTGRESQL, SQLITE**
- **REDIS**
- **AWS**
- **DOCKER**
- **GIT**
- **SCSS, CSS3**
- **HTML, JS**

EDUCATION AND EXPERIENCE

! Links to deployed projects and detailed description can be found in my portfolio website (see above). All code can be found in github.

Became <u>AWS Certified Cloud Practitioner</u>. Deployed my projects using EC2 and RDS.

Finishing Harvard course "CS50's Web Programming with Python and JavaScript", developing websites with Django and JavaScript (Already made auction, mail and network websites).

Finished internship in the company Meduzzen and made a backend for website about quizzes using FastApi, Redis, PostgreSQL and Docker.

Finished EPAM course "Front-End Self-Paced Online Program", using HTML, CSS3, JS and Git.

Completed Harvard course "CS50: Introduction to computer science", developed a website about board games using Flask and MySQL.

LANGUAGES

Native Ukrainian, Russian

C2 English (I have passed official Cambridge English test on C2 level.)

UNRELATED EDUCATION

I have bachelor's degree in chemistry (V. N. Karazin Kharkiv National University).
